

# Double Award GCSE Mathematics

## GCSE 1

### Exemplar Paper 2 Prereleased material for section B (Foundation & Higher Tiers)

This is released one month before the examination to allow candidates to work on it with their teachers. A clean copy will be available in the examination.

Candidates are advised to ensure that they understand the data and to do some analysis using a spreadsheet.

Candidates can download the data electronically and may wish to use more than one copy so that they can reduce the data by deleting items they are not looking at.

Questions to think about before the exam are printed after the data.

This paper is one of a set of 6 exemplar papers written by MEI, covering the Foundation and Higher Tiers of GCSE 1 and 2.

The aim of these papers is to inform public discussion. They do not contribute to any existing GCSE qualification.

June 2006

Team	Played	Home Wins	Home Draws	Home Losses	Home Goals For	Home Goals Against	Away Wins	Away Draws	Away Losses	Away Goals For	Away Goals Against	Goal Difference	Points
Accrington Stanley	42	16	3	2	38	17	12	4	5	38	28	31	91

## Questions to think about before the exam

- What would be good ways to present this data?
- Is there any correlation between the variables?
- Would you get the same kind of pattern in the results for other divisions?
